## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-3, 6-10, and 24-39 are allowed.

The following is an examiner's statement of reasons for allowance:

The above mentioned claims are allowable over prior arts because the CPA (Cited Prior Arts) of record fails to teach or render obvious the claimed limitations in combination with the specific added limitations, as recited in independent Claims 1, 24, 34, 37 and subsequent dependent claims.

The system of cited prior art does not teach or suggest a system and method that provides the generation of a repeatable cryptographic key based on potentially *varying parameters* that are received, for example, during a computer resource access attempt. Importantly, the key is repeatable in that the same key may be generated whether or not the received parameters change.

The present invention addresses the drawback of compromising of the underlying system data (either the filters or the error correcting parameters) leaking sensitive information that would allow an adversary to more easily determine the user's authentication key.

Thus, the system of present invention further provides a mechanism of having ability to generate a repeatable cryptographic key in view of *varying measurements*. As a result, the invention may be used for various computer security applications. For example to authenticate computer system users based on particular keystroke features during resource access attempt. And a user is still be authenticated even though his/her keystroke features will *change slightly*

during multiple entries of the same password. The present invention will generate a repeatable key for a particular user if the keystroke feature measurements *vary within certain tolerances*, thus authenticating the user.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
